09.04.2024.

Letter of intent.

Company "Akva Ferma", reg.number 4010344001, from the Latvian-Norwegian company "Nidaros Seafood Latvia", reg. number 40203077091.

Our company has been operating for about 6 years in Latvia, in the industry related to the processing of salmon and trout into various products that our customers order. Among which there are companies from EU countries and Norway. One of our regular customers is the "Sanitex" company, which is one of the leaders in all selling of Latvia, Lithuania and Estonia.

We have a wide range of products offered - from simple filleting of fish, to processing into cold, hot smoking, lightly salted, dried and so on.

We have the ability to process and sell 500+ tons of trout per year, about 10 tons per week.

We are interested in cooperation in a future project for breeding and growing trout in Latvia.

Sincerely, President of the company M. Shandere
